

Forge X11 Vision

Android

3D Dimensioning. Built for the Workday.

Meet the Forge X11 Vision

The Forge X11 Vision brings mobile dimensioning to a rugged, enterprise-ready Android 16 platform built for demanding warehouse, logistics, and freight environments. With an integrated 3D depth camera, rugged MIL-STD-810H protection, IP68 sealing, and support for multiple camera configurations, it gives teams the flexibility to capture accurate dimensions and critical shipment data wherever work happens.

Pair the Forge X11 Vision with xPIM mobile dimensioning software and the Bluetooth-enabled xScale S200 industrial scale to capture dimensions, weight, barcode data, photos, and shipment documentation in a single mobile workflow. With a 10.95-inch 2.5K display and Snapdragon® performance, the Forge X11 Vision delivers the visibility, mobility, and rugged reliability needed to keep fast-moving operations moving.

3D DEPTH CAMERA

The Forge X11 Vision supports Intel® RealSense™ and Orbbec® 3D camera options for accurate mobile dimensioning of boxes, pallets, flats, oversized, irregulars, and smalls.

MOBILE DIMENSIONING

Pair the Forge X11 Vision with xPIM mobile dimensioning software to capture dimensions, weight (with xScale S200), photos, and barcode data from anywhere in the warehouse.

PHOTO DOCUMENTATION

Capture high-quality images with the Forge X11 Vision to help reduce chargebacks, surcharges, freight disputes, and damaged goods claims. Photos can also support cataloging, inventory management, and picking verification workflows.

REDUCE ERRORS

The Forge X11 Vision supports barcode scanning and can be paired with xPIM mobile dimensioning software for dimensioning and photo documentation workflows, as well as the Bluetooth-enabled xScale S200 for weight capture - helping reduce manual entry errors across operations.

BOOST PRODUCTIVITY

The Forge X11 Vision enables workers to capture critical shipment and inventory data on the move - eliminating dependence on fixed systems and helping improve workflow efficiency across operations.

WEIGHT CAPTURE

Pair the Forge X11 Vision with the Bluetooth-enabled xScale S200 industrial scale to capture weights up to 100 lbs. Integrate with xPIM for complete mobile data collection workflows.
