

Customize Your **Flex 10D** for the Way You Work

The Flex 10D adapts to your business with integrated data capture, payment acceptance, and identification technologies. From warehousing and manufacturing to retail operations and field service, optional accessories and features help your team work faster, improve accuracy, and deliver exceptional customer experiences.

BUILT FOR EVERY INDUSTRY

Warehousing

Accelerate inventory management by scanning barcodes, verifying products, and tracking assets in real time to keep warehouse operations moving efficiently.

Manufacturing

Improve production efficiency by identifying parts, tracking inventory, and updating work orders directly from the manufacturing floor.

Transportation & Logistics

Keep shipments moving by scanning packages, verifying deliveries, tracking assets, and collecting payments from a single mobile device.

Hospitality & Entertainment

Deliver exceptional guest service by scanning wristbands or event credentials for fast access and identification, accepting mobile payments, and assisting guests wherever service is needed.

Distribution

Increase fulfillment accuracy by scanning products, confirming shipments, and managing inventory throughout the distribution process.

Field Service

Equip technicians to scan equipment, access service records, verify assets, and accept payments while completing jobs on-site.

Retail Operations

Create a seamless customer experience by accepting secure payments, verifying loyalty or membership cards, managing inventory, and assisting customers from anywhere in the store.

Gaming & Casinos

Enhance guest experiences by scanning player cards or event credentials, verifying access, processing mobile payments, and keeping operations running efficiently across the property.

Expand What's Possible

Transform your Flex 10D with integrated accessories for data capture, identification, and secure payment processing.

NFC Contactless Identification

Enable fast, contactless interactions by reading NFC-enabled cards, badges, tags, and devices for authentication, identification, and asset management across a variety of mobile workflows.

Barcode Scanning Fast Data Capture

Capture 1D and 2D barcodes with speed and accuracy to simplify inventory management, shipment verification, asset tracking, and the scanning of guest wristbands, tickets, and credentials for fast identification and access.

Mobile POS & MSR Tap. Dip. Swipe.

Accept secure payments with flexible mobile payment accessories that support the way your customers prefer to pay, helping your workforce complete transactions quickly and confidently.

Ingenico Link 2500 Secure Mobile Payments

Accept secure EMV chip, contactless, and mobile wallet payments with the Ingenico Link 2500, giving your workforce the flexibility to process transactions wherever business happens.
